## POTTERS IN SECRET SESSION

Nothing Would be Given Out Concerning the Afternoon Session—Likely That

### VERY IMPORTANT LETTERS

Are Being Considered by That Body. Business of the Morning Session. The "Smoker" Last Night.

The fourth day's session of the convention of the National Brotherhood of Operative Potters was called to order by President A. N. Hughes. The entire day was devoted to the consideration of various resolutions pertaining to different matters. The resolutions presented to the convention have increased and multiplied until the secretary's desk is almost hidden behind a sea of paper. All these resolutions have a more or less important bearing upon the welfare of the organization.

Nothing can be definitely stated as to the business transacted at the afternoon session, as Secretary Duffy stated yesterday that the business of the convention has proceeded so far that nothing whatever can be given out for the press.

At the morning's session a resolution that will be of paramount importance to kilnmen was adopted, providing that in stacking the sanitary work in the kilns they will not be held responsible for breakage. Heretofore they have been working at a personal risk and had to make good any loss suffered by the manufacturers for breakage. This has been rather severe on the kilnmen and they considered it an injustice. When put in effect it may cause a clash between locals and the manufacturers, as it has been in vogue ever since the manufacturing of sanitary ware was begun.

Another resolution of great importance was the one providing for the adoption of a uniform scale for the government of the men employed in the warehouses. It was adopted after some little discussion. There is no scale at present regulating the wages paid to warehousemen.

Much discussion was rife at the morning session over the suggestion by a delegate that the sanitary men and plumbers who use their product be instructed to co-operate for their mutual interests. Afterwards a resolution was adopted embodying the views of this delegate, and recommending the establishment of certain agreements with the plumbers for the benefit of the sanitary branch of the trade.

A resolution was presented this morning, which if adopted will have the effect of making the two vice presidents of the order salaried officers. There was nothing in the resolution fixing the amount of the salaries, and it was laid over until later in the week. It was recommended by the committee into whose hands it was placed, and there is every likelihood of its adoption.

Another resolution concerning salaries is still pending. It provides for an increase of the secretary's salary. He now receives the stipendiary sum of \$150 annually, and many of the delegates do not think this a sufficient sum. The office of secretary is by no means a sinecure, and he should receive a larger annual amount for his work. It has been suggested that the secretary's annual salary be placed at \$300, so that it would justify him in devoting all his time to his work.

Nothing could be learned concerning the afternoon session. It was of a private nature and the secretary would not divulge one jot of information concerning what transpired at the afternoon session.

While there is a vast amount of work yet to be done by the convention it is likely that the election of officers will occur to-day. A member stated yesterday that there was no hope for adjournment until Saturday, and that the business of the convention would likely carry it far into the night. If this be true the election of officers will not occur until Saturday, as the matter is always disposed of just before adjournment.

The introduction of resolutions closed with the morning session yesterday, and the work of the convention to-day will be devoted to their consideration. There has been a vast amount of them presented to the convention and the delegates look forward to two days of hard work.

Last evening the delegates were entertained by the Trades Assembly. It was a delightful social affair and every delegate present spent an evening of huge enjoyment. The following programme was rendered:

Opening Address.....President Bauer  
Recitation—"The Dinner Pail Breeze"—Miss Rita  
Song.....Delegated John Morrow  
Cake Walk.....The Misses Weisberger  
Address.....Charles Stein  
Baritone Solo.....W. K. Westwood  
Clog Dance.....Charles Johnson  
Recitation—"The Man With the Hoe"  
Comedy.....H. W. Gauding  
Comic Ballad.....Will Nesbitt  
Remarks.....Mayor Sweeney  
Song.....Delegated Smith  
Music by Kilmeier.

All the numbers were splendidly rendered and liberally applauded by the delegates. The inner man was taken care of by a liberal supply of solid and liquid refreshment. The affair partook of the nature of a "smoker," and it was on the whole a credit to the members of the Trades Assembly having it in charge.

### REFUSED TO SIGN.

La Belle Company Refuses to Agree to the Amalgamated Scale—Men Will Not Return to Work.

A committee of Virginia lodge No. 4, Amalgamated Association of Iron and Steel Workers, headed by Chairman George Weiser, called at the office of the La Belle mill Saturday and presented the new wage scale of the association. Manager Wright was away at the time, but sent for the committee Wednesday afternoon and informed them that it would be impossible for them to sign the scale in its present condition.

The local union of the Amalgamated Association will not organize until after the national body meets at Indianapolis and adopts the present scale. They continued to work at the old rate until at a meeting recently it was decided to appoint a committee to present the new scale.

The Steubenville plant of the La Belle Company was also presented with the scale, and it is thought the Riverside Company will also be presented with the scale in a short time.

The new scale as adopted last year at Indianapolis would mean a ten per cent. increase all along the line. It would affect the rollers, heaters and their helpers.

The La Belle has been idle during the last few weeks, and from all indications they are now ready to resume, but the men declare they will not return to work until the scale is signed. All the mills in the Ohio valley are paying wages at the rate contained in the new scale, and the local union will make a bold stand for what they declare is due them.

It is to be hoped that matters will be amicably adjusted between the men and the company and that the mill will resume operations in a short time. To close this industry for any length of time would be a severe blow to the city, and especially on the South Side, where it would almost cause a stagnation in business.

### Sale of Kenny Brewery Property.

The sale of the Kenny Brewery, corner of Eighth and Market streets, will be made at the Court House on Saturday, July 21, at 10 o'clock. The property is fully equipped for the manufacture of ale and porter, and together with a dwelling adjoining the brewery, will be sold as a whole. A splendid opportunity for a good investment.

Evening, Opera House Band and Francelli and Lewis.

### WORKING OVER TIME.

The Police Authorities Said to Have a Clue to the Recent Robberies.

The police are working energetically on the two robbery cases of the first part of the week, and it was reported last night upon good authority, that an elegant clue had been found and that indications pointed to the early apprehension of the burglars.

The police authorities themselves would, of course, say nothing regarding the cases—but from recent happenings it is evident that something is in the wind. It is said that a certain officer left the city on a hurry call yesterday, and it may be that his errand is in connection with the clue aforesaid.

### Had a Narrow Escape.

Last evening, shortly after 8 o'clock, a surrey containing Misses Lulu Frazell, Lottie Ritter and two small children was smashed into by a street car on South Chapline street, and the occupants precipitated to the street. The horse took fright at the approaching car, and becoming unmanageable backed the carriage in front of it, and before the driver could see the danger the car collided with the vehicle, almost demolishing it and throwing the excited occupants to the ground. They escaped injury, and beyond a few bruises they were more frightened than hurt.
